DESIGN IN DENMARK

STEM-Quest: STEAM, Design & Innovation Series

Where STEM meets creativity, culture, innovation, and exploration. STEM-Quest programs connect science and technology with design, history, leadership, business, and global perspectives through immersive educational travel experiences.

DESIGN IN DENMARK

Design • Architecture • Innovation • Culture

Copenhagen, Helsingør, Roskilde & Southern Sweden

Day	Meals	Morning	Afternoon		Evening	
1	AIR	Travel to Copenhagen, Denmark				
2	D	Arrive Copenhagen, Denmark, transfer to Hotel	Welcome, Safety & Orientation	Copenhagen Canal & Harbor Welcome Cruise	Copenhagen Welcome Dinner	
3	B, L, D	Trapholt Modern Art & Design Museum with Private Guide		Copenhagen Guided Walking Tour	Local Dinner & Free Time	
4	B, L, D	Hamlet Excursion / Helsingør: Guided Tour of Kronborg Castle UNESCO World Heritage Site		Maritime Museum of Denmark Guided Tour & Private Lecture	Free Time / Refresh	Street Food Dinner Experience
5	B, L, D	Designmuseum Danmark	Roskilde: Viking Innovation, Design & Cultural Heritage		Local Dinner & Free Time	
6	B, L, D	Sweden Day Excursion: IKEA Museum & Design Master Class + Lund & Malmö				Local Dinner
7	B, L, D	Copenhagen City Market Tour & Tasting	Copenhagen Harbor Architecture & Urban Design Tour by Bike	Danish Food Culture - Sustainability, Innovation & Business	Farewell Dinner on Nyhavn Street	
8	B	Transfer to Copenhagen International Airport; Depart Denmark for home				

As with all sample itineraries, please be aware that this is an "example" of a schedule and that the activities and hotels shown may be variable dependent upon dates, weather, special requests and other factors. Itineraries will be confirmed prior to travel.

A Message From Our Team

At STEM Study Tours, we believe students learn best when they're immersed, engaged, and inspired. Every program is built with intention - blending hands-on discovery, academic depth, and meaningful experiences that help students see the world (and themselves) in new ways. Our goal is for each itinerary to spark curiosity, build confidence, and create moments students carry long after the trip ends. We're honored to partner with schools who share that vision and to help bring learning to life beyond the classroom.

— Michele & The Hammock Expeditions Team

Why Travel With Hammock Expeditions & STEM Study Tours

Schools choose us because we design programs that are organized, intentional, and built around real learning. Our itineraries combine strong academics with smooth logistics, giving teachers confidence and giving students opportunities to explore, ask questions, and grow. We partner with trusted local experts, communicate clearly, and support groups every step of the way so educators can focus on their students - not the logistics.

What Sets Us Apart

- **Purpose-Driven Itineraries** - Students actively participate in meaningful, real-world learning.
- **Safety, Structure & Professionalism** - From 24-hour support to vetted partners and clear communication, we ensure teachers can focus on their students while we handle the logistics.
- **Hands-On, High-Impact Learning** - Our programs emphasize hands-on discovery, real-world application, and experiential learning that connects students with the subjects, places, and people they encounter.
- **Student-Centered Design** - We balance learning with fun, reflection with adventure, and structure with flexibility. Every day is crafted to keep students engaged, energized, and supported.
- **A Team That Travels With Purpose** - We're educators, planners, naturalists, and travel professionals who care deeply about student growth. Your goals become our goals.

Our Commitment to You

When you travel with us, you gain a partner who understands your vision, anticipates your needs, and delivers an experience your students will remember for years to come. We're here to support your school, empower your students, and make every moment meaningful.

We want to be your educational partner. Let us know how we may serve you.

Michele, Christina, Izzy, Dana, Taylor, and the Team

STEM STUDY TOURS
TRAVEL WITH PURPOSE

Day 1: Off to Denmark
Dinner in flight

Day 2: Hello, Copenhagen!
Breakfast in flight, lunch on own, dinner included (dependent upon flights / times)

Design in Denmark

STEM-Quest: STEAM, Design & Global Discovery Series

A Culture Shaped by Design & Innovation: Denmark is internationally known for a design philosophy that blends creativity, simplicity, functionality, and quality of life. From Copenhagen's architecture and evolving urban spaces to Danish furniture, maritime traditions, and sustainable food culture, students explore how thoughtful design can shape the way people live, work, move, and connect. The journey extends into southern Sweden, where Scandinavian innovation comes to life through iconic design, creative problem-solving, and new approaches to sustainability. Along the way, students discover that great design is about more than appearance. It is about understanding people, solving problems, and imagining better ways of doing things.

A Journey for Creative Thinkers & Innovators: This STEM-Quest experience challenges students to look at the world through a designer's eyes. Through museums, architecture, Viking and maritime heritage, an IKEA Museum master class, cultural experiences, and encounters with local experts, students examine how ideas develop from inspiration into real-world solutions. They explore the connections among art, engineering, architecture, business, sustainability, and culture while considering how Scandinavian ideas have influenced design around the world. By journey's end, students return home not simply inspired by what they have seen but thinking differently about how creativity and innovation can be used to solve problems and shape the future.

Did You Know?

- Danish design became internationally influential by emphasizing function, craftsmanship, quality, and the needs of the people using the design, principles that continue to shape Danish design today. Designmuseum Danmark traces this tradition across industrial design, furniture, and craft.
- Copenhagen is a living design laboratory. Its harbor, architecture, bicycle infrastructure and public spaces allow students to see how urban design can influence how people move through, experience and interact with a city.
- Even Designmuseum Danmark is a lesson in design. The museum occupies the former Royal Frederik's Hospital, built from 1752–1757, and was later adapted for museum use with the involvement of influential Danish architect and furniture designer Kaare Klint.
- Viking innovation went far beyond warfare. Viking ships demonstrate sophisticated solutions in woodworking, hull design, propulsion and navigation, making Roskilde an ideal place to explore the connection between ancient ingenuity and modern engineering.

- Kronborg Castle helped inspire the setting of Shakespeare's *Hamlet*. The UNESCO-listed castle at Helsingør connects architecture, literature and cultural history in one of Denmark's most recognizable historic settings.
- The journey into Sweden takes students to Älmhult, the birthplace of IKEA, where a simple idea about making well-designed furnishings accessible to more people developed into one of the world's most recognizable design brands.
- Great design is not just about how something looks. Materials, cost, usability, manufacturing, sustainability and human behavior can all influence whether a design succeeds, turning everything from a chair to a bicycle network into a problem-solving challenge.
- Students on this journey don't simply look at Scandinavian design. They investigate how and why things are designed, considering how creativity, engineering, culture, sustainability and business work together to turn ideas into solutions.

After arriving in Denmark, you'll meet your Tour Director and begin your introduction to one of Scandinavia's most design-forward destinations. During our Welcome, Safety & Orientation Briefing, we'll explore the themes of design, architecture, innovation, sustainability, and culture that will guide the journey, review local customs and cultural expectations, and discuss how we'll travel safely and responsibly throughout the program. Please note that lunch is not included today to accommodate varying arrival times. If your group arrives early enough for lunch, we'll gladly direct you to a great local dining option, payable on your own.

Today's activities include:

Canal & Harbor Welcome Cruise - There's no better way to get your first look at Copenhagen than from the water! Settle in for a relaxing cruise through the city's canals and harbor, where historic waterfronts meet contemporary architecture and innovative urban design. Along the way, students will discover how Copenhagen blends old and new while creating inviting public spaces around its waterways. After a long journey, it's the perfect introduction to the city: easygoing, scenic, and a glimpse of the creativity and thoughtful design we'll explore throughout our Scandinavian adventure.

Day 3: Designed to Inspire
Breakfast, lunch & dinner included

Today's activities include:

Trapholt Modern Art & Design Museum with Private Guide - Step into the world of Danish creativity at Trapholt, where modern art, design, architecture, and craftsmanship come together. With a private guide, students will explore how artists and designers transform ideas into objects, spaces, and experiences. Along the way, they'll consider the relationship between form and function, creativity and practicality, setting the stage for the Scandinavian design they'll encounter throughout the journey.

Copenhagen Guided Walking Tour - Explore Copenhagen on foot with a local guide and discover how history, architecture, design, and everyday life come together throughout the Danish capital. From historic streets and colorful waterfronts to contemporary architecture and thoughtfully designed public spaces, students will see how Copenhagen has evolved while maintaining its distinctive character. Along the way, they'll consider how urban planning, transportation, sustainability, and human-centered design influence the way people move through and experience a city.

Day 4: Castles, Culture & Coastlines
Breakfast, lunch & dinner included

Today's activities include:

Helsingør & Kronborg Castle: Architecture, Innovation & Hamlet - Journey to Helsingør for a guided exploration of Kronborg Castle, where architecture, engineering, defense, and maritime history come together. As students explore the castle's towers, halls, fortifications, and strategic position overlooking the Øresund, they'll consider how design responds to purpose, place, technology, and the needs of the people who created it. From defensive structures to grand interior spaces, the castle offers a fascinating look at how architecture can balance practical function with power, beauty, and identity.

Known around the world as Elsinore, the setting of Shakespeare's *Hamlet*, Kronborg also demonstrates the extraordinary relationship between place, storytelling, and cultural identity. Students will connect the castle's real history and design with its literary legacy, discovering how one remarkable place became part of global culture.

Maritime Museum of Denmark Guided Tour & Private Lecture - Dive into Denmark's maritime story through a guided museum experience and private lecture exploring how ships, technology, navigation, and trade helped shape the nation. Students will examine how changing needs and new ideas influenced ship design and life at sea while making connections among engineering, innovation, economics, and culture. Even the museum itself invites students to think like designers, considering how architecture can transform an existing space and create an entirely new visitor experience.

Street Food Dinner Experience - Enjoy a relaxed evening exploring Denmark's contemporary food culture through a lively street food experience. Students can sample different flavors and see how food, community, creativity, and shared spaces come together in a distinctly Scandinavian setting.

Day 5: From Vikings to Visionaries
Breakfast, lunch & dinner included

Today's activities include:

Designmuseum Danmark - Step inside one of Denmark's most important centers for design and discover how Danish creativity has influenced the way people live, work, and interact with the objects around them. Students will explore iconic furniture, industrial design, craftsmanship, and contemporary ideas while considering how materials, function, aesthetics, and human needs shape successful design. From celebrated classics to new approaches for the future, the museum offers a fascinating look at how designers turn observation and creative problem-solving into objects and solutions that can influence everyday life.

Guided Introduction & Independent Exploration - The experience begins with a one-hour guided introduction in English, giving students expert insight into the museum's collections, exhibitions, and the ideas that have shaped Danish design. Afterward, students will have additional time to explore, revisit pieces that captured their attention, and discover connections to their own interests in art, engineering, architecture, innovation, and design.

Roskilde: Viking Innovation, Design & Cultural Heritage - Journey to Roskilde to discover how Viking ingenuity transformed wood, craftsmanship, and practical knowledge into remarkably sophisticated ships built for exploration, trade, and life at sea. Students will examine how hull design, materials, construction techniques, and navigation required creative problem-solving long before modern engineering tools existed. Through Roskilde's Viking heritage, they'll explore the connection between form and function, technology and environment, and innovation and human need, discovering that Scandinavian design thinking has roots reaching back centuries.

Day 6: Swedish by Design
Breakfast, lunch & dinner included

Today's activities include:

Sweden Day Excursion - Today, cross into southern Sweden for a full day exploring another side of Scandinavian design, innovation, and culture. From the birthplace of one of the world's most recognizable design brands to the historic streets and evolving urban landscapes of Lund and Malmö, students will discover how Swedish creativity combines function, accessibility, sustainability, and forward-thinking ideas in everyday life.

IKEA Museum - Step inside the story of IKEA in Älmhult, where a small Swedish business grew into one of the world's most influential names in home design. Students will explore how IKEA transformed ideas about furniture through simple design, functionality, affordability, efficient use of materials, and products created around everyday human needs. Along the way, they'll consider how design decisions connect with manufacturing, transportation, marketing, sustainability, and business, demonstrating that successful design involves much more than how a product looks.

IKEA Design Master Class - Now it's time to think like a designer! During a hands-on class, students will move beyond observing finished products and explore the creative process behind turning an idea into a practical solution. They'll consider the choices designers face, from function and materials to usability, cost, and sustainability, while discovering how constraints can actually inspire creativity and innovation. By putting design thinking into practice, students experience how curiosity, experimentation, and creative problem-solving can transform a simple idea into something purposeful.

Discover Lund: History, Innovation & University Life - Explore the charming streets of Lund, where centuries of history exist alongside a vibrant culture of learning, research, and innovation. On a guided highlights tour, students will discover historic architecture, lively public spaces, and the influence of Lund's renowned university community while considering how older cities adapt to modern needs. It's a chance to see another side of Scandinavian design, one where education, culture, architecture, and forward-thinking ideas come together to shape the character and future of a city.

Malmö: Architecture, Sustainability & Urban Design - A city where bold architecture, sustainable thinking, and creative urban design are helping reshape the way people live and interact. Students will explore the contrast between historic neighborhoods and contemporary development while considering how architects and planners respond to changing environmental and community needs. They'll see how design, technology, sustainability, transportation, and public space can work together to create cities that are not only visually striking, but functional, adaptable, and designed for the future.

Day 7: Copenhagen by Design
Breakfast, lunch & dinner included

Copenhagen City Market Tour & Tasting - Start the day with a delicious introduction to Copenhagen's food culture as we explore one of the city's lively market settings. Students will discover local flavors, ingredients, and culinary traditions while sampling selected specialties and learning how food connects people to place and culture. Along the way, they'll also consider how thoughtful presentation, market design, sustainability, and small businesses help transform food from something we simply eat into an experience that brings a community together.

Copenhagen Harbor Architecture & Urban Design Tour by Bike - Experience Copenhagen from the saddle as students explore the city's waterfront with a local architect, discovering how architecture, urban planning, transportation, and public space work together to shape everyday life. Along the way, they'll examine the transformation of Copenhagen's harbor, encounter contemporary buildings and evolving neighborhoods, and consider how designers respond to the needs of both people and the environment.

Traveling by bike adds another dimension to the experience, giving students a firsthand look at how thoughtful infrastructure, sustainability, and human-centered design can help create a city that is functional, connected, and enjoyable to live in.

Danish Food Culture: Sustainability, Innovation & Business - Discover how changing tastes, environmental concerns, and consumer expectations are influencing the way food is created, produced, and marketed in Denmark. Students will explore how Danish businesses and entrepreneurs are responding with new ideas around sustainability, ingredients, production, and responsible consumption. Along the way, they'll consider the challenge of balancing environmental impact, consumer demand, cost, creativity, and business success, discovering how innovation can help reshape something as familiar as the food we eat.

Farewell Dinner in Nyhavn - Celebrate the final evening of our Scandinavian adventure in colorful Nyhavn, one of Copenhagen's most iconic waterfront settings. Surrounded by historic buildings, boats, cafés, and the lively atmosphere of the harbor, students will enjoy a special farewell dinner together while reflecting on the ideas, experiences, and discoveries that shaped the journey. It's the perfect place to share favorite memories and toast an unforgettable week of design, innovation, culture, and exploration.

Day 8: Bringing the Inspiration Home
Breakfast (dependent upon departure time)

After breakfast, it's time to say farewell to Copenhagen and transfer to the airport for the journey home. As students leave Denmark behind, they'll carry with them far more than memories of colorful waterfronts, castles, Viking ships, innovative cities, and Scandinavian design. They'll return home with new ways of looking at the everyday world around them and a greater appreciation for the creativity and thoughtful problem-solving behind the places, products, and experiences people create.

From Danish design and Viking ingenuity to architecture, urban planning, sustainability, food innovation, and hands-on design thinking, this journey has challenged students to consider one central idea: good design begins with understanding a problem and imagining a better solution. We hope they return home inspired to keep asking questions, exploring ideas, and using their own creativity to design, innovate, and shape the future.

Farvel, Denmark!

Weather in Denmark & Southern Sweden

Spring (March–May): Crisp, Bright & Changing

- Temperature: Approximately 35–60°F (2–16°C), warming considerably as the season progresses.
- Conditions: Cool mornings and evenings, increasingly mild afternoons, and a mix of sunshine, clouds, wind, and occasional rain.
- Highlights: A wonderful season for walking tours, architecture, biking, and exploring Copenhagen and southern Sweden as outdoor spaces come back to life.
- Packing Tips: Layers, comfortable walking shoes, a waterproof jacket, and a light-to-medium sweater or fleece.

Summer (June–August): Mild, Bright & Perfect for Exploring

- Temperature: Approximately 50–72°F (10–22°C), with comfortably cool evenings. Copenhagen averages highs around 68–72°F (20–22°C) during these months.
- Conditions: Long daylight hours, generally comfortable temperatures, and a mixture of sunshine, breezy conditions, and periodic showers.
- Highlights: Excellent weather for biking, harbor exploration, walking tours, outdoor markets, waterfront dining, and full days of sightseeing.
- Packing Tips: Lightweight layers, comfortable walking shoes, a light waterproof jacket, sun protection, and a sweater or light jacket for cooler evenings.

Fall (September–November): Colorful, Cool & Atmospheric

- Temperature: Approximately 40–65°F (4–18°C), becoming progressively cooler through November. Copenhagen's average highs fall from about 64°F in September to 46°F in November.
- Conditions: Crisp temperatures, changing leaves, shorter days, and a greater chance of cool, windy, or rainy weather.
- Highlights: Beautiful conditions for museums, design experiences, city exploration, architecture, and experiencing Scandinavian culture as the seasons change.
- Packing Tips: Layers, a waterproof jacket, comfortable water-resistant walking shoes, and a warmer sweater or fleece later in the season.

Winter (December–February): Cold, Cozy & Scandinavian

- Temperature: Approximately 30–40°F (-1–4°C) around Copenhagen, with colder days possible.
- Conditions: Cold temperatures, short daylight hours, wind, cloudy skies, and the possibility of rain, sleet, or snow.
- Highlights: A wonderful season for museums, design and cultural experiences, historic sites, and experiencing the cozy Scandinavian tradition of hygge.
- Packing Tips: A warm waterproof coat, insulating layers, hat, gloves, scarf, warm socks, and comfortable waterproof walking shoes.

Weather Note: Scandinavian weather can change quickly, even during summer. Layering is strongly recommended, and travelers should always bring a lightweight waterproof outer layer and comfortable walking shoes.

Civics & Courtesy in Denmark & Southern Sweden

Cycling Culture & Bike Safety - Bicycles are part of everyday life in Copenhagen. Stay alert around bike lanes, follow your guide's instructions, and never stand or walk in a designated cycling lane.

Courtesy at Museums & Historic Sites - Help protect important collections and historic spaces. Speak quietly, follow posted guidelines, avoid touching exhibits unless invited, and respect restricted areas.

Photography & Personal Courtesy - Follow site-specific photography rules and be considerate when photographing people. Avoid blocking walkways, exhibits, entrances, or public spaces while taking photos.

Respecting Public Spaces & Local Life - Remember that Copenhagen, Lund, Malmö, and Helsingør are living communities. Avoid blocking sidewalks, entrances, bike lanes, or transit areas, dispose of litter properly, and be mindful of noise.

Scandinavian Courtesy & Cultural Awareness - Danish and Swedish culture values consideration for others, personal space, and shared environments. Punctuality, patience, polite greetings, and respect for local customs go a long way.

Taste of Denmark – Local Favorites to Try

Danish cuisine blends simple ingredients, seasonal traditions, and a strong connection to both land and sea. Traditional dishes now share the table with modern bakeries, bustling food markets, international street food, and innovative approaches to local and sustainable ingredients. Throughout the journey, students will have opportunities to sample familiar favorites, discover something new, and experience how **food, culture, creativity, and community** come together in everyday Danish life.

1. Smørrebrød – Denmark's famous open-faced sandwiches, traditionally served on dense rye bread and topped with combinations of meats, fish, cheese, vegetables, eggs, and flavorful garnishes.
2. Frikadeller – Traditional Danish meatballs, typically served with potatoes, vegetables, gravy, or other classic accompaniments.
3. Flæskesteg – Danish roast pork with crisp crackling, often accompanied by potatoes and red cabbage and traditionally associated with family meals and celebrations.
4. Rugbrød – Dark, hearty Danish rye bread and a staple of everyday cuisine. It forms the foundation of many varieties of smørrebrød.
5. Danish Hot Dogs (Pølser) – A fun street-food favorite often served with toppings such as mustard, ketchup, remoulade, onions, and pickles. Definitely one I'd encourage the students to try!
6. Fiskefrikadeller – Danish fish cakes made from minced fish and seasonings, offering students another taste of Denmark's long connection to the sea.
7. Kanelsnegle – A Danish cinnamon pastry with swirls of buttery dough, cinnamon, and sugar. A very easy student favorite.
8. Wienerbrød (Danish Pastry) – What much of the world simply calls a "Danish." These flaky pastries come in an assortment of shapes and fillings and are an essential stop at a Danish bakery.
9. Æbleskiver – Small, round Danish pancake-like treats traditionally served with powdered sugar and jam. Although particularly associated with the Christmas season, they're worth trying whenever students have the opportunity.
10. Danish Ice Cream & Sweet Treats – From ice cream and chocolates to licorice and colorful candies, Danish sweets give students plenty of opportunities to sample something fun, including the famously salty licorice that may be an acquired taste!

Entry Requirements for Travel to Denmark & Sweden

Entry requirements for Denmark and Sweden vary by nationality, and all travelers are responsible for confirming the most current requirements during trip planning and before departure. Both countries participate in the Schengen Area, so travelers may be subject to passport, visa, travel authorization, and other entry requirements based on their nationality and individual circumstances. Requirements can change without notice; always verify current information through your government's travel authority and official Danish, Swedish, and European Union immigration resources before travel.

General Requirements for International Travelers

- A valid passport or approved travel document appropriate to the traveler's nationality
- Passport validity must meet current Schengen entry requirements
- Travelers may be asked to provide information regarding the purpose of travel, accommodations, sufficient funds, and onward or return travel
- Compliance with Danish, Swedish, Schengen, immigration, and customs requirements
- Travelers must meet all entry requirements applicable to their nationality and individual circumstances

Visa-Free & Visa-Required Travelers

- Citizens of many countries may visit Denmark and Sweden visa-free for short stays
- Other nationalities require a Schengen visa before travel
- Visa-free short stays are generally limited to 90 days within any 180-day period across the Schengen Area as a whole, not 90 days in each country.
- Travelers requiring a Schengen visa should apply well in advance. Denmark advises that applications may generally be submitted up to six months before travel and should be submitted no later than 15 days before entry.

ETIAS & European Travel Authorization Requirements

- Travelers who are subject to ETIAS or another applicable European travel authorization requirement at the time of travel must obtain the required authorization before departure.
- Requirements vary by nationality, passport, and traveler status; not every traveler will require the same authorization.
- Any required travel authorization should be obtained only through the official European Union or government-designated application system.
- Travelers should ensure that all information provided for a travel authorization exactly matches the passport being used for travel.
- Schools, families, and travelers should confirm current requirements well before departure and again shortly before travel.

Important Notes

- Entry requirements can change; travelers must confirm requirements before departure.
- Requirements depend on the passport being used for travel, not simply the traveler's country of residence.
- Schools should verify passport validity and individual entry requirements well before flights are finalized.
- Travelers should keep secure copies of passports and required travel documents separate from the originals whenever possible.
- An approved visa or future ETIAS authorization does not guarantee admission; final entry decisions remain with border authorities.

HAMMOCK EXPEDITIONS

STEM STUDY TOURS
TRAVEL WITH PURPOSE

DESIGN IN DENMARK
STEM-Quest: STEAM, Design & Innovation Series

Minimum Booking Numbers: 20 students

What's Included:

- ✓ International flights with a scheduled carrier
- ✓ 6-nights' accommodation
- ✓ Airport transfers + point-to-point transfers for activities
- ✓ Breakfasts, sandwich lunches and dinners daily starting with dinner on arrival and ending with breakfast on departure (dependent upon service times)
- ✓ Copenhagen Canal & Harbor Welcome Cruise
- ✓ Trapholt Modern Art & Design Museum with Guided Tour
- ✓ Guided Walking Tour of Copenhagen
- ✓ Kronborg Castle UNESCO World Heritage Site, Guided Tour
- ✓ Maritime Museum of Denmark with Private Lecture (dependent upon availability)
- ✓ Designmuseum Danmark with 1-hour Guided Tour
- ✓ Roskilde Excursion: Viking Innovation, Design & Cultural Heritage
- ✓ IKEA Museum & IKEA Design Master Class (Sweden)
- ✓ Highlight Tour of Lund: History, Innovation & University Life
- ✓ Highlight Tour of Malmö: Architecture, Sustainability & Urban Design
- ✓ Copenhagen City Market Tour & Tasting
- ✓ Copenhagen Harbor Architecture & Urban Design Tour by Bike
- ✓ Danish Food Culture - Sustainability, Innovation & Business
- ✓ Personal Tour Director
- ✓ 24-hour emergency cover

What's Not Included:

- ☒ Fully comprehensive insurance (**mandatory**; available at registration or purchased independently)
- ☒ Baggage costs, pay directly to airline (if required)
- ☒ Transfers to/from home airport
- ☒ Lunches, snacks, or beverages outside of designated mealtimes
- ☒ Meal selections other than those provided for the entire group (we are generally able to accommodate food allergies and cater for vegetarians, halal and in some cases vegan)
- ☒ Cost of visas, visa waivers, passports or other legal requirements for entry/return
- ☒ Cost of inoculations or medication required for travel
- ☒ Sightseeing / entertainment / transportation not shown in Itinerary
- ☒ Hotel incidental deposits & bills – mini-bar, movies, etc.
- ☒ Gratuities – local guides, tour director
- ☒ Credit card fees if individuals wish to pay via credit card instead of ACH
- ☒ Additional taxes, fuel surcharges or fees levied by governments / suppliers

As always, our staff are available to you to answer any questions you may have regarding programming.
If we may serve you in any way, please do not hesitate to contact us.
